JORDAN STEPHENS

Chicago, IL | 773.520.9334 | jstephens@icstars.org

SUMMARY

Detail-driven professional transitioning from precision manufacturing into data. Currently a 2026 Technology & Leadership Intern in the i.c.stars program, training in SQL, data modeling, and JavaScript. Experienced in turning complicated processes into a clear structure, and working toward a career in data architecture: designing systems that remain reliable as they grow.

EXPERIENCE

Technology & Leadership Intern — i.c.stars, Chicago, IL *Aug 2026 – Present*

- Building JavaScript/React applications on SQL databases and REST APIs in a client-sponsored software project.
- Writing and testing JavaScript and SQL code using AI-assisted development tools (Copilot) within Agile/Scrum workflows.
- Completing ERD and data-modeling exercises, mapping entities and relationships before writing code.
- Applying QA discipline to code review, data validation, and technical assessments.

Quality Control Inspector — ID Logistics, Chicago, IL *Mar 2026 – Jun 2026*

- Inspected 1,500+ units per shift against quality and packaging specifications.
- Logged 100% of inspection data, creating a reliable, audit-ready record for reporting.
- Flagged and escalated discrepancies early, supporting first-pass quality and reducing rework.

SMT Engineer / Operator — PeopleWorks, Matteson, IL *Aug 2025 – Jan 2026*

- Operated an SMT line producing 400–500+ PCBs per shift to precision-assembly standards.
- Performed 1,000–1,500 end-of-line inspections weekly and tracked hourly throughput.
- Reduced line downtime by quickly identifying errors and resetting equipment.

CNC Machinist Apprentice — Aeromet Industries, Griffith, IN *Mar 2024 – Jul 2024*

- Supported CNC setups, preventive maintenance, and shop-safety compliance in aerospace production.
- Applied blueprint reading, basic GD&T, tool selection, and feeds-and-speeds calculations.

Machine Shop Assistant, CAD/CNC Training — Prairie State College, Chicago Heights, IL *Jul 2023 – Jan 2024*

- Translated technical drawings into precision-machined parts.
- Maintained shop tooling and materials to support an efficient, safety-compliant learning environment.

EDUCATION

i.c.stars Chicago — Technology & Leadership Internship, Chicago, IL *In progress, Dec 2026*
Prairie State College — CAD, Applied Science coursework, Chicago Heights, IL *2022 – 2024*
Bloom Township High School — High School Diploma, Chicago Heights, IL *2018*

SKILLS & CERTIFICATIONS

Technology: SQL, relational databases, data modeling (ERDs), REST APIs, CRUD, JavaScript, React, Excel, data analysis, AWS fundamentals, Agile/Scrum, AI-assisted development

Quality & Process: Quality control, inspection and data logging, root-cause analysis, process improvement, blueprint reading, GD&T, technical documentation

Certifications: Introduction to Software Quality Assurance (Coursera / Google) • OSHA-10 (State of Illinois) • Microsoft Office Specialist: Word, Associate • National Forklift Certification
